

DW Décor Brochure

Client: Innovation Design

Surround Yourself With the Warmth of Tradition

A luxurious environment can be comfortable, too. In fact, we believe it should be. This simple principle forms the basis of all we do at DW Décor. We combine the elegance of rich fabrics, traditional furnishings and unique accessories to create residential and business environments filled with warmth and individuality.

A sense of style

Living and work spaces should reflect the personalities of the people who occupy them – not just the views of the decorator. We work closely with you to assess how best to infuse your individual presence into your environment. We can use your existing furniture and accessories or we can start anew. Either way, the result will reflect your unique style.

Elegance can be affordable

Whether you need assistance with a single room or an entire home or office, we can help. We understand that money is often an important factor, so we work closely with you to provide maximum value. DW Décor's goal is to create the environment of your dreams – at a price you can afford. Please call us for a free consultation to assess your individual needs.

Our service is the difference

From floor to ceiling, DW Décor will work with you to transform your environment. We can assist you with the following aspects of your decorating needs:

- Traditional furnishings
- Architectural flourishes
- Wall and window treatments
- Flooring
- Accessories and collections
- Art acquisition
- Organization systems
